Education

IIT Kharagpur — *M.Tech. Dual in Manufacturing Science and Engineering* ***(CGPA: 8.54)***

Experience

Inditech Health Solutions — ***Product Management Intern, Mumbai (Hybrid)*** *Feb 2025 – Present*

- Designed the "Nutrilift" program, which launched on the eSAPA platform to impact **20K+ children** nationally.
- Led product design and user flow for the "Microsite" tool, now actively used by over **15,000 doctors**.
- Boosted campaign engagement by **35%** through **SQL**, **Power BI**, and **Google Analytics**-driven optimization.
- Orchestrated cross-functional alignment with design, tech, and marketing to ensure timely feature launches.

Munshot AI — ***Product Designer and Developer Intern, Singapore (Remote)*** *Oct 2024 – Feb 2025*

- Owned the complete product design from concept to delivery, creating a system now used by **1K+ analysts**.
- Conducted product research and competitor benchmarking to find growth opportunities and shape direction.
- Analyzed user behavior via **Google Analytics** and **SQL** to enhance engagement models and strengthen retention.

Natura Ayur Science — ***Product Management Intern, Bangalore (Remote)*** *Jul 2024 – Oct 2024*

- Built and deployed a CRM system integrating marketing, sales, and support to enhance efficiency by **40%**.
- Automated outreach campaigns to boost engagement by **50%** and expand the customer base to **5K+**.
- Trained and aligned **20+ members** for smooth CRM adoption and standardized operational practices.

Projects

VR Framework for Automotive Ergonomic Optimization *Under Prof. J. Maiti, IIT Kharagpur*

Developed a simulation integrating an AI 'Ergonomic Watchdog' for safety and efficiency optimization.

- Engineered VR simulation with AI ergonomic validator (**Python**, **Next.js**) for real-time safety feedback.
- Modeled modular **SolidWorks** end-effector system with 3D-printed prototype to minimize physical strain.

E-Commerce Export Platform for MSMEs — Smart India Hackathon 2024 *Finalist*

Architected and launched the "Bharat Niryat Portal" to empower ***40M+ MSMEs*** *in global trade.*

- Eliminated **40%** e-commerce commission fees by enabling direct export through **ONDC** and **SBlePay** integrations.
- Streamlined MSME onboarding and automated export documentation, boosting adoption and efficiency.
- Enhanced seller visibility and cross-border transactions for **45%** of India's manufacturing output.

Next-Generation Retail Experience — Walmart Sparkathon 2024 *IIT Kharagpur*

Conceptualized an innovative retail model combining automation, AR, and sustainability principles.

- Formulated a "Scan-Pay-Go" model via QR codes, reducing labor **30%** and space **70%**, eliminating queues.
- Proposed in-store **AR/GenAI** virtual try-ons to boost engagement, cut uncertainty, and minimize returns.
- Integrated a sustainability layer ensuring ethical sourcing and transparent labeling for **66%** of conscious consumers.

Skills

Technical Languages: C/C++, JavaScript, Python, HTML/CSS, TypeScript, SwiftUI, SQL (PostgreSQL).
Frameworks & Libraries: React.js, Next.js, Express.js, Tailwind CSS, Shadcn, Prisma, DizzleORM, WebRTC.
Tools: Figma, Adobe Creative Suite, Power BI, Jira, Miro, Google Analytics, Git & GitHub, Notion, Excel, SolidWorks.
Core Skills: Web, App Development, UI/UX Design, Product Management, User Flows, Research, Wireframing.
Institute Coursework: Linear Algebra, Programming and Data Structures, Probability & Statistics, Enterpreneurship.
MOOCs: IBM AI Product Manager, Google UX Design, iOS & Swift (by Angela Yu).

POSITIONS OF RESPONSIBILITY

Design and Media Sub-Head — Spring Fest *Aug 2023 – Apr 2024*

- Co-managed a **27-member team** and digital campaigns for Asia's largest fest, reaching **30k+ subscribers**.

NSS Volunteer *Nov 2022 – Apr 2024*

- Facilitated outreach programs, mentoring and supporting schoolchildren in underserved rural areas.
